Rio de Janeiro, may 20, 2009.

Mr. Rector,
Mario Bonucci
Universidad de los Andes
Venezuela

We would like to express our emphatic support for the exclusion of Internet costs from the recent decree which establishes procedures for the elimination of superfluous expenses in the Venezuelan public sector.

The central role played by the Internet in scientific activities nowadays is so obvious that we think it almost unbelievable that it could be regarded as superfluous by Venezuelan public officials.

We wish you complete success in reversing this regrettable situation.

Yours sincerely,

Sergio José Barbosa Duarte
Presidente/ANPesq
